TACTICAL GEAR BAG

The tactical gear bag is just a duffel... in the same way that the STRYKER A.P.C. is just a mini-van. Look it up. You'll get it. The tactical gear bag is made of the same durable water-resistant canvas as its compact counterpart, and the storage is supported with flexible mesh subdividers. Comes with secondary support straps that allow the bag to quickly (and easily!) convert into a rucksack carry. Pack the bag and get after it. Imported.

Don't waste time on a pack that will just fall apart at the first sign of hard work like an intern making their first coffee run. You need a well-made pack with useful components. Durable water-resistant canvas, D-ring supports, reinforced handle... you get the idea. Imported.

ActionFlex™ weaponry is a state-of-the-art, full-contact line including swords, escrima sticks, and staffs which duplicate the sensation of using authentic weaponry. ActionFlex full-contact products incorporate a unique patented piston system that gives the user complete realism. Made from the strongest materials available, ActionFlex products have proven to hold up during the most intensive workouts. Great for all levels of martial artists.

ACTIONFLEX PISTON SYSTEM

The patented ActionFlex Piston System assembly is constructed of high-tensile bushings, allowing the weapon to flex and return while maintaining the original structure. When the multi-part system flexes, it transfers the force of the user's hit through the weapon to the target, replicating the flex of a multi-layered steel blade. This type of flex action gives the weapon the performance, durability, and longevity expected of the ActionFlex training products and is perfect for training.

AMERICAN

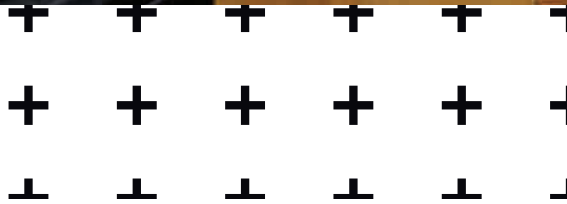

Made in America. An empty fixture marketers tack on to lackluster products. At Century, it has weight. Our company started in a one-car garage in Oklahoma City. A couple of seamstresses sewed uniforms that would *actually* fit the lanky frames of American martial artists. We have always been a manufacturer. We make things. That's who we are; who we will *always* be.

The heavy bag is a classic example. *The* classic example. Every gym has one, and everyone's hit one. Ours are made right here and held to the highest standard. And, when it comes to the freestanding systems, ours were made first. We invented them. But you already knew that.

It is our mission to champion the schools who deliver the transformative power of martial arts to students everywhere—young or old, rich or poor, strong or weak—and enable each one of them to live up to their full potential.

IRONMAN

THE CHAMPION RETURNS

In 1990, the original Ironman hit shelves and immediately made an impression. Martial arts instructors and high-level competitors alike took notice of the uniform. Its thick, heavy weave made it resistant to wrinkling, stronger, and less likely to rip or tear in the heat of competition. Today, we're re-introducing the Ironman gi. Like before, it is made with high-quality fabric, now reengineered with modern standards and new features for today's martial artist.

- 1 TAILORED CUT AND STRATEGICALLY PLACED GUSSETS DESIGNED FOR COMFORT AND EASE OF MOVEMENT
- 2 TEN ROWS OF STITCHING ON ALL CUFFS, AND REINFORCEMENT AT KEY STRESS POINTS
- 3 UNIQUE LOW-SITTING POCKET MAKES PANTS GREAT FOR HOLDING SMALL GEAR WITHOUT INTERFERING WITH INSTRUCTING OR TRAINING
- 4 MADE TO HOLD UP TO THE DEMANDS OF INTENSE, HIGH-LEVEL MARTIAL ARTS TRAINING, TEACHING OR COMPETITION
